

EO MINI PRO 3

Impossibly small.
Impressively smart.

FEATURES

Size matters: Compact and ergonomic design, same size as an A5 notepad.

Small but powerful: Charging capacity of 7kW, perfect for overnight charging.

Safe and reliable: Power balancing ready, preventing energy blackouts at home. Standard 1-year warranty.

Charge your car with sunshine: Connect to your solar panels using net-zero solar technology.

Ready for any weather: IP54 (socketed), IP56 (tethered) certified and operates in -25°C temperatures. Safe indoor or outdoor installation.

CSMS Integration

Connect Mini Pro 3 to Charging Station Management System (CSMS) for enhanced insights, energy usage analysis, charge scheduling, telematics integration and more.
